Vertical Ventilation

“HANDS – ON TRAINING”

Students will have the opportunity to practice vertical ventilation techniques on different types of roofs using ventilation props and acquired structures. Students will use hand tools, chainsaws, rotary saws and work with ladders. Students will be taught how to work as a team when performing vertical ventilation. Students will be put through intense “HANDS-ON” training on pitched roofs, flat roofs, and metal roofs.

DATE: October 30, 2010

TIME: 8:30 am to 5:00 pm

LOCATION: Conway Fire Dept. Training Facility, 1525 Sturgis Rd, Conway, AR
